

Pulaski Lake Improvement District
PO BOX 332
Buffalo, MN 55313

August 16, 2023

Taylor Gronau
City Administrator
212 Central Ave
Buffalo, MN 55313

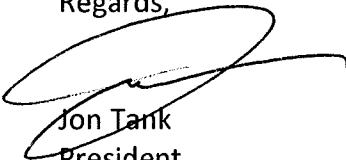

Dear Taylor,

Thank you for attending the Pulaski Lake Improvement District annual meeting last night. As you are aware the Pulaski Lake homeowners voted to reject the bids from July 10, 2023, in order to move forward with phase two of the new filtration project due to the financial impact this would impose on the lake homeowners.

The Pulaski Lake Improvement District would like to continue pursuing assistance from the State of Minnesota and the Federal Government to offset the costs for phase two of the filtration system.

The LID board truly values the insight and guidance that you continue to provide throughout this process of trying to find the best solution that will benefit all parties without imposing a significant financial burden on the homeowners and the City of Buffalo for a new Lake Pulaski filtration system.

Regards,

Jon Tank
President
